

June 25, 2021

The Honorable Dianne Feinstein
Chairman
Subcommittee on Energy and Water
U.S. Senate Appropriations Committee
Washington, DC 20510

The Honorable John Kennedy
Ranking Member
Subcommittee on Energy and Water
U.S. Senate Appropriations Committee
Washington, DC 20510

Dear Chair Feinstein and Ranking Member Kennedy,

I certify that neither I nor my immediate family has any known pecuniary interests in any of the congressionally directed spending items that I have requested in the Fiscal year 2022 Energy and Water Appropriations Bill, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate.

Sincerely,

A handwritten signature in black ink, appearing to read 'C. Booker', with a long horizontal flourish extending to the right.

Cory A. Booker
United States Senator

Booker, Cory (D-NJ) Energy and Water Development

Congressionally Directed Spending Requests

Recipient Name	Project Purpose	Project Location	Amount Requested (in the thousands)
Borough of Avalon	To fully renourish the island's eroded beaches of Avalon and Stone Harbor, and provide the option for the City of North Wildwood to conduct a locally funded beach nourishment project to protect its critically eroded north end by allowing the City to take advantage of the existing dredge mobilization.	Borough of Avalon	\$1550
Borough of Flemington	The purpose of the project is to construct new potable water wells to provide resiliency and provide additional water source in order to complete redevelopment projects within the Opportunity Zone.	Borough of Flemington	\$5500
Borough of Glen Gardner	The purpose of the project is to install a new 150,000 gallon water storage tank, rehabilitate the aging 150,000 gallon water storage tank, and install a booster pump station on the system in order to have adequate pressure under all flow conditions, including fire. This project is needed as the current tank is in disrepair and needs to be rehabilitated. This project will directly affect the residents of the Borough as they are customers of the water system.	Borough of Glen Gardner	\$2300
City of Gloucester City	To reconstruct the Gloucester City Seawall located at Proprietors Park in Gloucester City, Camden County, New Jersey.	Proprietors Park, Gloucester City, Camden County, New Jersey	\$2985
City of Plainfield	To replace aging HVAC infrastructure at Plainfield Municipal Court and Police Headquarters to ensure for sustainable, energy-efficient units.	325 Watchung Avenue, Plainfield, NJ 07060	\$1500
City of Plainfield	To install a comprehensive storm sewer system around various streets in the City of Plainfield to mitigate flooding and stormwater runoff.	Various City of Plainfield Streets, including Pine Street, Lake Street, Highland Avenue, Hillside Avenue, Woodland Avenue, and Watchung Avenue	\$1000
New Jersey Clean Cities Coalition	To implement a demonstration project that produces renewable green hydrogen from wind turbines and uses it to fuel new prototype, zero emission, medium-duty hydrogen fuel trucks.	Atlantic County Utilities Authority Wastewater Treatment Plant in Atlantic City, NJ	\$3840
Town of Clinton	For the sanitary sewer aspect, taking into account the additional future flow capacity requirements, replacement with a higher-capacity sewer main is recommended, as opposed to rehabilitation of the existing 12-inch main. Installation of the new 15-inch connection on State Route	Rt. 173 from Main Street to the eastern border to the Town of Clinton	\$3500

	<p>173 is recommended to reduce flow along the East Main Street parallel line, and to minimize the disturbance that would result from a full replacement project along this narrow corridor in the Town's historic business district.</p> <p>The water main replacements for the Rt. 173 project is listed as a critical project by the Town of Clinton and Water Department, in the efforts to create reliable and safe drinking water to their customers. The increased size and strategic location of the water main will create a redundant large diameter loop within the water system, allowing for additional fire flow and fire protection to the residents, as well as would have the capability to serve future build outs along the project area, as required.</p>		
Town of Piscataway	To provide for low cost electricity through renewable solar power thereby reducing Piscataway's carbon footprint.	The project will be located at over the Department of Public Works canopy located at 505 Sidney Rd. in Piscataway.	\$500
Township of Bloomfield	To replace 60 lead water lines along N. 16th Street, providing safe and clean drinking water in an area that is home to traditionally underserved populations.	North 16th Street, Bloomfield, NJ	\$510
Willingboro Municipal Utilities Authority	To allow for the Willingboro Municipal Utilities Authority to operate its water treatment plant at full capacity during a prolonged power grid outage.	55 Meribrook Circle, Willingboro, NJ	\$600
Willingboro Municipal Utilities Authority	To improve energy efficiency and reduce utility costs at WMUA facilities	55 Meribrook Circle, Willingboro NJ 08046, 72 Ironside Court, Willingboro NJ 08046, 30 Sylvan Lane, Willingboro NJ 08046	\$94
