**Booker, Cory (D-NJ) Energy and Water Development****Congressionally Directed Spending Requests**

<b>Recipient Name</b>	<b>Project Purpose</b>	<b>Project Location</b>	<b>Amount Requested (in the thousands)</b>
Borough of Avalon	To fully renourish the island's eroded beaches of Avalon and Stone Harbor, and provide the option for the City of North Wildwood to conduct a locally funded beach nourishment project to protect its critically eroded north end by allowing the City to take advantage of the existing dredge mobilization.	Borough of Avalon	\$1550
Borough of Flemington	The purpose of the project is to construct new potable water wells to provide resiliency and provide additional water source in order to complete redevelopment projects within the Opportunity Zone.	Borough of Flemington	\$5500
Borough of Glen Gardner	The purpose of the project is to install a new 150,000 gallon water storage tank, rehabilitate the aging 150,000 gallon water storage tank, and install a booster pump station on the system in order to have adequate pressure under all flow conditions, including fire. This project is needed as the current tank is in disrepair and needs to be rehabilitated. This project will directly affect the residents of the Borough as they are customers of the water system.	Borough of Glen Gardner	\$2300
City of Gloucester City	To reconstruct the Gloucester City Seawall located at Proprietors Park in Gloucester City, Camden County, New Jersey.	Proprietors Park, Gloucester City, Camden County, New Jersey	\$2985
City of Plainfield	To replace aging HVAC infrastructure at Plainfield Municipal Court and Police Headquarters to ensure for sustainable, energy-efficient units.	325 Watchung Avenue, Plainfield, NJ 07060	\$1500
City of Plainfield	To install a comprehensive storm sewer system around various streets in the City of Plainfield to mitigate flooding and stormwater runoff.	Various City of Plainfield Streets, including Pine Street, Lake Street, Highland Avenue, Hillside Avenue, Woodland Avenue, and Watchung Avenue	\$1000
New Jersey Clean Cities Coalition	To implement a demonstration project that produces renewable green hydrogen from wind turbines and uses it to fuel new prototype, zero emission, medium-duty hydrogen fuel trucks.	Atlantic County Utilities Authority Wastewater Treatment Plant in Atlantic City, NJ	\$3840
Town of Clinton	For the sanitary sewer aspect, taking into account the additional future flow capacity requirements, replacement with a higher-capacity sewer main is recommended, as opposed to rehabilitation of the existing 12-inch main. Installation of the new 15-inch connection on State Route	Rt. 173 from Main Street to the eastern border to the Town of Clinton	\$3500

	<p>173 is recommended to reduce flow along the East Main Street parallel line, and to minimize the disturbance that would result from a full replacement project along this narrow corridor in the Town's historic business district.</p> <p>The water main replacements for the Rt. 173 project is listed as a critical project by the Town of Clinton and Water Department, in the efforts to create reliable and safe drinking water to their customers. The increased size and strategic location of the water main will create a redundant large diameter loop within the water system, allowing for additional fire flow and fire protection to the residents, as well as would have the capability to serve future build outs along the project area, as required.</p>		
Town of Piscataway	To provide for low cost electricity through renewable solar power thereby reducing Piscataway's carbon footprint.	The project will be located at over the Department of Public Works canopy located at 505 Sidney Rd. in Piscataway.	\$500
Township of Bloomfield	To replace 60 lead water lines along N. 16th Street, providing safe and clean drinking water in an area that is home to traditionally underserved populations.	North 16th Street, Bloomfield, NJ	\$510
Willingboro Municipal Utilities Authority	To allow for the Willingboro Municipal Utilities Authority to operate its water treatment plant at full capacity during a prolonged power grid outage.	55 Meribrook Circle, Willingboro, NJ	\$600
Willingboro Municipal Utilities Authority	To improve energy efficiency and reduce utility costs at WMUA facilities	55 Meribrook Circle, Willingboro NJ 08046, 72 Ironside Court, Willingboro NJ 08046, 30 Sylvan Lane, Willingboro NJ 08046	\$94

WASHINGTON, DC 20510

Recipient Name	Project Purpose	Project Location	Location of project if different from address listed	Amount Requested (In thousands)
<b>American Littoral Society</b>	To address the highest-priority vulnerabilities at the mouth of the Maurice River resulting in measurably increased community resiliency for the port communities through the creation of up to 6,625 feet of hybrid living shoreline breakwaters and oyster/ribbed mussel reefs/beds at Basket Flats and Northwest Reach and the creation of a planted, rock revetment at the tip of Basket Flats that will further protect shoreline and marsh.	Cumberland County, NJ	18 Hartshorne Drive, Ste. 1, Highlands, NJ 07732	\$500
<b>Borough of Bergenfield</b>	For the dredging of Cooper's Pond, which is an important cultural and historic landmark within the Borough of Bergenfield and Bergen County.	Borough of Bergenfield, Bergen County	198 North Washington Avenue, Bergenfield, NJ 07621	\$250
<b>Borough of East Newark</b>	For addressing water service infrastructure improvements in the Borough of East Newark.	Borough of East Newark	34 Sherman Avenue, East Newark, NJ 07029	\$338
<b>Borough of Prospect Park</b>	To replace parts of a 90-year-old main sewer line that has experienced numerous problems in recent years.	Borough of Prospect Park, Passaic County	106 Brown Avenue, Prospect Park, NJ 07508	\$210
<b>Borough of Red Bank</b>	For the removal and replacement of lead pipes on the Borough's western side, where there is a disparate number of underserved populations residing.	Borough of Red Bank, Monmouth County	90 Monmouth Street, Red Bank, NJ 07701	\$250
<b>Borough of Rocky Hill</b>	The purpose for the funding is to improve the water system in the Borough of Rocky Hill. The water system will have a non-compliance issue with New Jersey in 2022 over PFOS which is currently being tested for and is exceeded the maximum contaminant level. Rocky Hill is a small community and has limited funding resources. This issue will cause the Borough financial hardship. In addition, the water department needs a second water well in order to comply with New Jersey Firm Capacity requirements. Lastly, one of our water mains in Crescent Ave. is leaking bad and must be replaced.	Borough of Rocky Hill, Somerset County	15 Montgomery Avenue, Rocky Hill, NJ 08553	\$2300
<b>City of Hackensack</b>	The City's old, overburdened Combined Sewer System (CSS) and tidal influence of the Hackensack River lead to frequent Combined Sewer Overflows (CSOs) and severe localized flooding in public right of ways during wet weather events, also known as CSS surcharging. The project includes installation of stormwater infrastructure that will facilitate CSS separation efforts. It is important to recognize that a CSS contains both collected stormwater runoff and sewage from the throughout the City, so when the system backs up and floods the public streets or overflows into the Hackensack River it is extremely detrimental to public health and the environment. The project is intended to provide public health benefits by reducing sanitary discharges to the Hackensack River during rain events, reducing or eliminating CSS surcharging, or localized flooding into private property and public streets, decreasing impacts to aquatic species and habitats in receiving waters, and allowing for separate connections from newly developed properties to the separated storm and sanitary systems.	City of Hackensack, Bergen County	65 Central Avenue, Hackensack, NJ, 07601	\$10000
<b>City of Newark</b>	For the purchase of semi-permanent acoustic monitoring equipment to identify leaks in the water distribution system and reduce unaccounted for	City of Newark, Essex	920 Broad Street, Room B-31F,	\$492

# United States Senate

WASHINGTON, DC 20510

	water losses.	County	Newark, NJ 07102	
<b>City of North Wildwood</b>	To transform the current North Wildwood Gateway Veterans Memorial Park and multiple adjacent lots into a fully functional and inviting open space.	City of North Wildwood, Cape May County	901 Atlantic Avenue, North Wildwood, NJ 08236	\$1835
<b>City of Salem</b>	For the purpose of updating system infrastructure to mitigate flooding and reducing the risk of natural disaster in flooding during major storm events and allowing for opportunity for economic growth.	City of Salem, Salem County	17 New Market Street, Salem, NJ 08079	\$7000
<b>City of Woodbury</b>	To reconstruct storm water sewer system infrastructure that has outlived its useful life and is causing a potential public health hazard.	City of Woodbury, Gloucester County	33 Delaware Street, Woodbury, NJ, 08096	\$118
<b>Hopewell Township</b>	To upgrade a historic building on the current Municipal Building grounds to allow it to be used as a Visitors Center.	Hopewell Township, Mercer County	21 Washington Crossing Pennington Road, Titusville, NJ 08560	\$500
<b>National September 11 Memorial and Museum</b>	To rehabilitate the Memorial Pools and public facilities at the National September 11 Memorial.	Sussex County	180 Greenwich Street, New York, NY 10007	\$1585
<b>Sparta Township</b>	To complete an extensive wastewater capital project at White Deer Plaza in Sparta Township, which will provide significant environmental benefits and drastically improve our operational efficiency.	Sparta Township, Sussex County	65 Main Street, Sparta Township, NJ 07871	\$250
<b>Sussex Borough</b>	To purchase equipment to detect water leaks throughout the system and repair them, costing an additional \$100,000 above the \$50,000 currently available for the project.	Sussex Borough, Sussex County	2 Main Street, Sussex, NJ 07461	\$1000
<b>Sussex Borough</b>	To replace 1,600 feet of sewer force main leading to the Sussex County Municipal Utility Authority's (SCMUA) sewage treatment plant located on Rt. 94 in Lafayette, NJ costing additional \$1,000,000 above the \$400,000 currently available for the project.	Sussex Borough, Sussex County	2 Main Street, Sussex, NJ 07461	\$1000
<b>Town of Boonton</b>	To remediate the slope failure along Rockaway Street in Grace Lord Park occasioned by Hurricane Irene and to stabilize and prepare the slope for reconstruction of the trail system which once ran through the park.	Town of Boonton, Morris County	100 Washington Street, Boonton, NJ 07005	\$2350
<b>Town of Boonton</b>	To update and improve upon our existing Wellfield Water Treatment Plant which is outdated and aging, incapable of handling the levels of iron and manganese in our water, and is therefore not able to process our wells full water capacity.	Town of Boonton, Morris County	100 Washington Street, Boonton, NJ 07005	\$2166
<b>Township of Berkeley Heights</b>	To finish studying and start constructing a water infrastructure project on the west side of town of enormous scale and cost yet is vitally important to our community. This project has bipartisan support among our community and is the # 1 infrastructure project facing our town; it will be "shovel ready" by 2022.	Township of Berkeley Heights, Union County	29 Park Avenue, Berkeley Heights, NJ 07922	\$500
<b>Town of Hammonton</b>	To study the sources of the infiltration of groundwater and storm water into the sanitary sewer system, repair portions of the existing system, and study additional target areas for the need of future preventative measures and the effects of initial rehabilitation efforts.	Town of Hammonton, Atlantic County	100 Central Avenue, Hammonton, NJ 08037	\$395

United States Senate

WASHINGTON, DC 20510

Town of Morristown	To make drainage improvements to Western Avenue in the Town of Morristown through the installation of new drainage structures and pipes, which will significantly mitigate recurring flooding.	Town of Morristown, Morris County	60 Columbia Road, Morristown, NJ 07960	\$226

WASHINGTON, DC 20510

Totowa	at the Totowa PAL Fields complex in Totowa, NJ.	Totowa, New Jersey 07512	
City Of Elizabeth	To purchase two electric buses, which will have the capacity of transporting sixteen passengers with two ADA positions each, as well as associated charging stations, for use throughout the City of Elizabeth.	Elizabeth, NJ	\$419
City Of Elizabeth	To replace two antiquated traffic light systems within the City of Elizabeth at the intersections of North Avenue and Jackson Avenue as well as at East Jersey Street and Jefferson Avenue.	North Ave, Jefferson Ave, Elizabeth, NJ	\$500
City of Gloucester City, New Jersey	For the Reconstruction of The Pier Five Bridge.	101 S. King Street, Gloucester City, NJ 08030	\$4500
City of Hoboken	To fund the installation of four (4) dual-port direct current (DC) Fast Charging Stations to support the transition of private vehicle ownership to electric vehicles	Hoboken, NJ	\$250
City of Newark	For the creation and preservation of housing affordable to Newark residents with household incomes at or below 30% of Area Median Income (AMI)	Newark, NJ	\$8000
City of Newark	For funding to rapidly rehouse individuals evicted once moratorium ends, to disburse rental arrears assistance to help individuals maintain their housing, to mediate pre-eviction and to prevent eviction.	Newark, NJ	\$500
City of Newark	<p>To repurpose the former CNJ Railroad Bridge by constructing a pedestrian bridge connecting Newark Penn Station to the City of Newark's central business and entertainment districts.</p> <p>It is anticipated that the City will issue bonds to finance the project. The debt service payments for the bonds will be primarily paid for by the 3.5% parking tax surcharge authorized by Governor Philip Murphy in 2020. However, due to the effects of COVID, the anticipated revenue collection from that parking tax surcharge will fall short of the amount needed to pay debt service annually in years 1 through 3. The requested funding will be pledged as revenue to securitize the necessary bond financing of the project cost and/or used to reduce the bond amount to be issued, thereby reducing the anticipated debt service on the bond financing.</p>	Newark, NJ	\$6,000
